Protect your hearing while staying connected thanks to Bluetooth 5.0.

The **NUM'AXES CAS1036 electronic noise-canceling headphones** automatically reduce impulse noise from **82 dB** while amplifying ambient sounds up to **10x** . Their **Bluetooth 5.0 connectivity** , **two microphones** , and silicone ear cushions provide excellent comfort and clear communication during **shooting** , **hunting** , or noisy work.

- **Noise reduction:** automatic activation from 82 dB
- **Attenuation:** approximately 27 dB (SNR)
- **Sound amplification:** up to 10x
- **Microphones:** 2 high-frequency microphones
- **Bluetooth:** Bluetooth 5.0
- **Audio output:** 3.5 mm jack
- **Volume control:** Yes
- **Sound:** Stereo
- **Shells:** Thinned
- **Pads:** Silicone
- **Headband:** Padded
- **Power supply:** 2 AAA LR03 1.5V batteries (not included)
- **Battery life:** up to 78 hours (26 hours with Bluetooth)
- **Weight:** 290 g
- **Warranty:** 2 years
- **Contents:** Headphones, 3.5 mm jack cable and user guide

Smart hearing protection

Thanks to its electronic circuitry, the **NUM'AXES CAS1036 electronic noise-canceling headphones** instantly detect impulsive noises and automatically attenuate them as soon as they

exceed **82 dB** . This technology effectively protects hearing during **sport shooting** , **hunting** trips, or the use of particularly noisy tools.

Amplification of natural sounds

Unlike passive headphones, these amplify ambient sounds up to **10 times** . Conversations, animal movements, and environmental noises remain perfectly audible while maintaining excellent protection against gunshots. The two high-frequency microphones ensure precise and natural stereo reproduction.

Bluetooth 5.0 to stay connected

Bluetooth 5.0 allows you to listen to music, follow audio instructions, or answer calls without removing your headset. This feature is especially useful during long shooting sessions, outdoor work, or fieldwork, while still maintaining electronic hearing protection.

Comfort designed for extended use

Its soft silicone ear pads, padded headband, and slim earcups provide excellent comfort, even during extended use. Weighing only **290g** , it's easy to forget you're wearing it while remaining perfectly stable on your head.

High autonomy

Powered by two AAA batteries, this model offers up to **78 hours** of battery life without Bluetooth and approximately **26 hours** with Bluetooth enabled, thus limiting battery replacements during regular use.

FAQ

Does Bluetooth work while wearing hearing protection?

Yes. You can listen to music or take calls while benefiting from electronic protection against impulse noise.

Is this helmet suitable for sport shooting and hunting?

Yes. It is designed to protect hearing during shooting sessions and hunting activities while amplifying natural environmental sounds.

What batteries are needed?

The headset operates on two AAA (LR03) 1.5V alkaline batteries, not included.

Consult the article "Noise-canceling headphones: Choosing the right hearing protection for hunting and shooting?" to learn about the different criteria for choosing noise-canceling headphones.
