- **Connector:** Mini Tamiya
- **Recommended weight of the marbles:** 0.25 g
- **Length:** 845 to 925 mm
- **Weight:** 3200 g
- **Color:** Black

An official reproduction under TTI license

The **Sig Sauer Custom PF MPX JW TTI** is an official reproduction of the famous platform developed by **Taran Tactical Innovations** . Its **CNC-machined aluminum receiver** , deeply engraved markings, and accurate dimensions provide remarkable realism, both visually and in hand.

High-end internal components

This replica is equipped with the renowned **VFC Avalon V2 gearbox** , coupled with an ECS system and an **integrated MOSFET** . Reinforced bearings, a high-torque neodymium magnet motor, and a quick-change spring system ensure excellent responsiveness and simplified maintenance.

Modern ergonomics and ambidextrous controls

The ambidextrous charging handle with dual return springs, the fire selector, and the magazine release button, accessible from both sides, significantly improve user comfort. The **BCM AIR** polymer grip and the **BCM Air MOD 0 SOPMOD** stock mounted on a TTI adapter ensure excellent handling.

Platform ready to receive your accessories

The extended **M-LOK** metal handguard is paired with a **22mm Picatinny** rail for mounting optics, grips, lights, or lasers. The outer barrel is fitted with a **3-port compensator** , and the handguard can be removed for easy access to the battery compartment.

Performance tailored to the game

With an energy output of less than **1.3 joules** , an **adjustable hop-up** , and a **100-round** semi-transparent magazine, this replica offers accuracy, battery life, and consistency. The **14mm CCW** thread also allows for the mounting of numerous compatible accessories.

FAQ

Is the battery included?

No. The battery is not included. The replica uses a Mini Tamiya connector.

Does this replica have a MOSFET?

Yes. It is equipped with an integrated MOSFET associated with VFC's ECS electronic system to improve responsiveness and electrical management.

What accessories can be installed?

The 22mm Picatinny rail and M-LOK interfaces allow for the mounting of scopes, red dot sights, grips, lights, or other compatible accessories. The 14mm CCW thread also accepts various airsoft muzzle devices.
