- **Follower:** 4-way self-lubricating anti-tipping
- **Spring:** Heat-treated stainless steel
- **Texture:** Optimized front and rear grip
- **Made** in the United States
- **Warranty:** Amend2® Lifetime Warranty

A compact charger designed for reliability

The **Amend2® AR-15 Mod-A 10-round magazine** offers a reliable solution for platforms chambered in **5.56 NATO** and **.223 Remington**. Its compact size is particularly appreciated for rest shooting, precision shooting sessions, or applications requiring a reduced capacity.

Glass fiber reinforced polymer

The charger body is made of **fiberglass-reinforced polymer**, offering excellent impact resistance, increased rigidity, and good resistance to temperature variations. This design also helps limit deformation of the feed lips over time.

A regular diet

The **self-lubricating, anti-tilt, 4-way follower** ensures consistent cartridge presentation throughout the feeding cycle. Combined with a **heat-treated stainless steel spring**, it guarantees smooth operation and excellent durability.

Excellent handling

Textured areas at the front and rear improve grip during handling, while smooth sides facilitate inserting and removing the magazine without snagging equipment.

Made in the USA

Made in the **USA**, the **Amend2® Mod-A** boasts meticulous design and a lifetime manufacturer's warranty. Its material also accepts Cerakote®-type surface treatments and laser engraving for easy customization.

FAQ

What calibers is this magazine compatible with?

This model is compatible with 5.56x45 NATO and .223 Remington cartridges used on compatible AR-15 platforms.

What is the purpose of the anti-tilt follower?

The four-way self-lubricating follower limits the risk of tipping during feeding and promotes a smooth operating cycle.

Is the charger made of metal?

No. It is made of fiberglass-reinforced polymer, a material known for its impact resistance, lightness, and durability.
