The official charger for the TTI Ballerina GBB

This magazine is the official model for the **TTI Ballerina GBB** . It retains the original features of the range to ensure perfect locking, consistent BB feeding, and excellent reliability during use.

30% additional gas reserve

Its extended base increases gas capacity by approximately **30%** . In practice, this extra gas improves the time between reloads and promotes more consistent pressure during rapid-fire

sequences. A real advantage for long games or players who fire magazines repeatedly.

A reliable and constant power supply

With a **28-round** capacity and **sealed inlet and outlet valves** , this magazine minimizes gas loss and contributes to the replica's smooth operation. Its consistent feeding ensures a smooth cycle and consistent performance with **Green Gas** .

Two finishes to personalize your replica

This charger is available with a black or **bronze charger extension** . Both versions retain the same technical specifications and allow you to match the look of your **TTI Ballerina** to your preferences.

The perfect complement to your equipment

Having one or more extra magazines is a real advantage in some cases. By sticking with an **official magazine** , you benefit from optimal compatibility with your **TTI Ballerina GBB** and performance that meets the manufacturer's specifications.

FAQ

Which replicas is this magazine compatible with?

This magazine is exclusively designed for the TTI Ballerina R34-4 and R34-3 GBB replicas.

Why choose an official charger?

An official magazine guarantees perfect compatibility with the replica, precise locking, consistent feeding, and performance in accordance with the manufacturer's specifications.

What is the difference with a standard charger?

This version benefits from an integrated extension offering approximately 30% more gas capacity, which improves autonomy between refills while maintaining a capacity of 28 balls.
