- **Supplied with:** Carry bag, 3 spiked feet, 3mm and 5mm Allen keys

A tripod designed for the field

The **KJI K750** was designed for users who want extremely stable support without the burden of heavy equipment. Weighing only **1.4 kg** , it can be easily carried in a backpack or vehicle while

offering an impressive load capacity of **68 kg** .

A carbon structure combining rigidity and lightness

The **carbon fiber** legs minimize vibrations while significantly reducing overall weight. The **hard-anodized aluminum** body ensures excellent resistance to wear and external conditions, even under heavy use.

Adaptable to all shooting positions

Thanks to an adjustable height of **9 to 143 cm** and three leg opening angles (23°, 55°, and 83°), the **K750** is suitable for shooting from a standing position as well as from seated, kneeling, or prone positions. Its four sections deploy quickly thanks to CNC-machined locking rings, providing smooth and secure adjustment.

Compatible with KJI Reaper systems

The standard **3/8"-16** thread allows for the mounting of a wide variety of ball heads and brackets. The **K750** is notably compatible with **KJI Reaper** systems, widely used for mounting long guns, spotting scopes, binoculars, or other observation equipment.

Excellent stability on all terrains

The rubber feet provide good grip on hard surfaces, while the included metal spikes ensure optimal traction on soft ground, soil, or uneven terrain. This versatility makes it an excellent choice for **target shooting** , **hunting** , **observation** , and professional applications.

FAQ

Is the K750 compatible with a KJI Reaper head?

Yes. Thanks to its standard 3/8"-16 thread, it is compatible with KJI Reaper heads as well as with many ball heads and accessories using this standard.

What is the maximum load this tripod can support?

The K750 supports up to 68 kg (150 lbs), allowing it to accommodate long guns, spotting scopes, optics and other heavy equipment.

What does the box contain?

The tripod comes with a carrying bag, three interchangeable spiked feet, and two Allen keys (3mm and 5mm) for maintenance and adjustments.
