A high-performance AEG replica with integrated GATE ASTER 2 Bluetooth electronics.

The **Lancer Tactical W10 Widowmaker Gen 4 AEG** combines a **metal body** , **GATE ASTER 2 Bluetooth electronics** , and a **6.03 mm precision barrel** to deliver excellent responsiveness. Its **CNC-machined M-LOK handguard** , **quick spring change system** , and robust design ensure a scalable, reliable, and high-performance platform for demanding players.

- **Brand: Lancer Tactical** / Wag Armory
- **Model: W10 Widowmaker Gen 4 WAG Edition**
- **Type:** AEG replica
- **Gearbox:** Gen 4
- **MOSFET: GATE ASTER 2 Bluetooth ETU**
- **Body:** Metal alloy with a matte black finish
- **Handguard:** 10-inch M-LOK CNC floating
- **Top rail:** Full Picatinny
- **Inner barrel:** 6.03 mm precision
- **Barrel length:** 290 mm
- **Hop-up:** Adjustable CNC chamber
- **Velocity:** 380 to 400 FPS (0.20g BBs)
- **Magazine:** Mid-Cap 140 rounds
- **Connector:** Deans
- **Stock:** Delta with rubberized butt plate
- **Sights:** Folding rear and front sights
- **Strap attachment:** QD
- **Color:** Black

Advanced electronics ready to play

This **airsoft replica** comes standard with the **GATE ASTER 2 Bluetooth MOSFET** , a high-end electronic system offering excellent trigger response, multiple programmable firing modes, and complete electronic gearbox protection. The Bluetooth connection allows easy access to settings via the official GATE GCS smartphone app.

A robust and scalable platform

The **metal body** features a durable matte black finish that withstands the rigors of the field. Its **free-floating M-LOK CNC handguard,** combined with the integrated Picatinny rail, allows for the installation of optics, grips, lights, or designators, making it easy to adapt the configuration to different playing styles.

Precision and consistency

The combination of a **CNC-machined hop-up chamber** and a **precision 6.03mm inner barrel** promotes consistent trajectory and excellent shot accuracy. With a claimed muzzle velocity of 380 to 400 FPS, this platform is perfectly suited for outdoor games, in accordance with field regulations.

Ease of use

AR-standard controls, an ambidextrous charging handle, a **Delta stock** with a rubber butt plate, and a **quick-change spring** system make this platform pleasant to use and easy to adapt to the demands of different terrains. The Deans connector also optimizes electrical efficiency.

WAG Edition Configuration

This special edition features CNC-etched **Wag Armory** branding on the receiver, improved quick-deploy flip-up sights, and a high-speed 140-round mid-cap magazine. The package offers a polished presentation and an excellent foundation for players looking for a high-performance platform right out of the box.

FAQ

Is the MOSFET GATE ASTER 2 programmable?

Yes. It connects via Bluetooth to the official GATE GCS app to customize firing modes, trigger sensitivity, and many other electronic parameters.

Can the spring be easily replaced?

Yes. The Gen 4 gearbox features a quick spring change system, making it easier to adapt the power to the demands of different terrains.

What accessories are included?

The replica comes with a 140-round Mid-Cap magazine, a flash hider, a set of folding sights, and a Wag Armory patch.
