Original Blowback Housing assembly for Hi-Capa ARCTURUS non-Optics Ready cylinder heads.

The **ARCTURUS Hi-Capa Blowback Housing** is an original part designed for **Tactical Vanguard blowback actions that are not Optics Ready**. Its design, combining **cast zamak** and **CNC-machined aluminum**, guarantees reliable operation and perfect compatibility with original replicas.

- **Type:** Blowback Housing
- **Brand:** ARCTURUS
- **Construction:** Die-cast Zamak with CNC-machined aluminum components
- **Compatibility:** ARCTURUS Tactical Vanguard Hi-Capa slides (non-Optics Ready)
- **Function:** Blowback Housing Assembly for GBB replica
- **Use:** Replacement of an original part
- **Contents:** Assembled Blowback Housing

An original part for classic Hi-Capa slides

The **ARCTURUS Hi-Capa Blowback Housing** is designed to replace the original assembly installed on **Tactical Vanguard non-Optics Ready** slides. It allows you to restore the internal mechanism of the slide while maintaining the manufacturer's intended characteristics.

A robust and precise construction

The body of the assembly combines **die-cast zamak** with **CNC-machined aluminum** components. This combination offers a good balance between mechanical strength, assembly precision, and durability, ensuring smooth operation of the **gas blowback** system.

Vanguard non-ORS specific compatibility

This version is exclusively for **Tactical Vanguard slides that are not Optics Ready**. It does not replace the Blowback Housings developed for **ORS (Optics Ready Slide)** models, which have a

specific internal design.

Ideal for maintaining your replica

Replacing a worn **blowback housing** helps maintain the proper functioning of the bolt cycle and the overall reliability of the replica. Using a genuine **ARCTURUS** part ensures optimal compatibility with the platform's original components.

FAQ

Which replicas is this Blowback Housing compatible with?

It is compatible with ARCTURUS Tactical Vanguard Hi-Capa non Optics Ready bolts.

Is it compatible with ORS Optics Ready bolts?

No. This version is intended only for Tactical Vanguard bolt carriers that are not Optics Ready. ORS models use a specific Blowback Housing.

What materials make up this set?

The Blowback Housing is made of die-cast zamak with CNC aluminum components to ensure robustness, precision and reliability.
