A reinforced ball follower for reliable feeding of Hi-Capa magazines.

The **ARCTURUS RS® Hi-Capa SEFP™ BB follower** is made of **SEFP™ (Super Enhanced Formulated Polymer)** for excellent wear resistance. Compatible with **ARCTURUS Tactical Vanguard Hi-Capa magazines** , it promotes consistent **BB** feeding and contributes to the reliability of the **gas blowback** system.

- **Type:** BB follower (Magazine BB follower)
- **Brand: ARCTURUS**
- **Range:** RS® SEFP™
- **Material:** SEFP™ Super Enhanced Formulated Polymer
- **Compatibility: ARCTURUS Tactical Vanguard Hi-Capa** Magazines
- **Function:** Guiding and feeding the BBs into the magazine
- **Use:** Replacement or maintenance of the original follower

A more regular feeding of the marbles

The **ARCTURUS RS® Hi-Capa SEFP™ BB follower** guides the BBs inside the magazine to ensure a smooth feed to the replica's chamber. Its proper functioning directly contributes to the consistency of firing cycles on a **gas blowback** platform.

A high-strength SEFP™ polymer

Made from **SEFP™ (Super Enhanced Formulated Polymer)** , this component offers excellent resistance to wear and mechanical stresses generated by the repeated cycles of the magazine spring. This technical material ensures smooth sliding over time.

Designed for heavy-duty use

During successive reloads, the follower is constantly under stress. This version, developed by **ARCTURUS,** is designed to maintain smooth movement within the magazine body and preserve reliable BB feeding during games.

Compatible with Tactical Vanguard magazines

This **BB Follower magazine** is specifically designed for **ARCTURUS Tactical Vanguard Hi-Capa magazines** . It directly replaces the original part while maintaining the manufacturer's specifications.

An ideal room for maintenance

Replacing a worn follower helps maintain the proper functioning of the loader. This component is a suitable solution for both preventative maintenance and the refurbishment of a heavily used loader.

FAQ

Which chargers is this tracker compatible with?

It is compatible with ARCTURUS Tactical Vanguard Hi-Capa magazines.

What is the role of a BB Magazine Follower?

The follower guides the BBs into the magazine to ensure a regular feed to the replica and reliable system operation.

What are the advantages of the SEFP™ polymer?

SEFP™ (Super Enhanced Formulated Polymer) offers excellent resistance to wear and mechanical stress while maintaining a low weight, making it a suitable material for charger components.
