SKU	Designation	French Law	MSRP
PU02016	ARCTURUS Hop-Up Hi-Capa Block	Vente libre	24.90 € incl. tax

An original Hop-Up block to restore optimal power and accuracy.

The **ARCTURUS Osprey 5" mid-frame kit** combines a **die-cast zamac chassis** with **CNC-machined** components for strength and precision. Compatible with the **ARCTURUS Tactical Osprey 5"** and **Tokyo Marui parts** , it features a **reinforced hammer pin** for long-lasting reliability.

- **Type:** Hop-Up Chamber Set
- **Brand: ARCTURUS**
- **Compatibility: ARCTURUS Tactical Vanguard Hi-Capa**
- **Function:** Holds the inner barrel and hop-up bucking
- **Use:** Replacement or repair of the Hop-Up system

The heart of the Hop-Up system

The **ARCTURUS Hi-Capa Hop-Up unit** is one of the essential components for the proper functioning of the replica. It secures the **inner barrel** and the **Hop-Up bucking** , ensuring their alignment for consistent BB feeding.

A design faithful to the original specifications

Developed for the **ARCTURUS Tactical Vanguard** , this block replicates the characteristics of the original component to ensure compatibility with the replica's mechanics. It is perfectly suited for replacing a worn or damaged part.

Regular feeding and a consistent trajectory

Proper positioning of the hop-up bucking and barrel is essential for reliable operation of the **gas blowback** system. A well-maintained hop-up unit contributes to smooth BB feeding and optimal trajectory consistency.

Ideal for maintenance

During a complete overhaul or refurbishment of the replica, replacing the **Hop-Up Chamber Set** allows you to regain the original performance while maintaining compatibility with the components intended by the manufacturer.

FAQ

Which replicas is this Hop-Up unit compatible with?

It is compatible with ARCTURUS Tactical Vanguard Hi-Capa replicas.

What is the role of a Hop-Up block?

The Hop-Up block holds the inner barrel and the Hop-Up seal, ensures their alignment and contributes to a regular feed of BBs as well as the stability of trajectories.

Is this block intended for repair or customization?

It is primarily suitable for replacing an original part as part of the maintenance or refurbishment of a compatible replica.
