PU02025	ARCTURUS Hi-Capa RS® Striker Lock	Vente libre	14.00 € incl. tax

A MIM steel striker lock designed to enhance the reliability of the Hi-Capa mechanism.

The **ARCTURUS RS® Hi-Capa firing pin lock** is made of **MIM steel** for excellent wear resistance. Compatible with **ARCTURUS Tactical Vanguards** , it improves the robustness of the mechanism, the durability of internal components, and contributes to smoother operation of **gas blowback** replicas.

- **Type:** Valve Knocker Lock
- **Brand: ARCTURUS**
- **Range:** RS®
- **Construction:** Steel MIM (Metal Injection Molding)
- **Compatibility: ARCTURUS Tactical Vanguard Hi-Capa**
- **Function:** To hold and guide the Valve Knocker within the mechanism
- **Advantages:** Enhanced strength, increased durability, and smoother operation

An essential part of the internal mechanism

The **ARCTURUS RS® Valve Knocker Lock** helps to securely hold the **Valve Knocker** within the firing mechanism of **Hi-Capa** platforms. Its role is essential to ensure the smooth operation of the various internal parts during the firing cycle.

Made of MIM steel

Machined using the **Metal Injection Molding (MIM)** process, this component offers excellent dimensional accuracy and high wear resistance. This material is particularly well-suited for mechanical parts subjected to repeated stresses.

Robustness and regularity of operation

According to the manufacturer, this version improves the mechanism's strength, durability, and the smoothness of the breechblock's movement. It provides a reliable replacement for a worn or

damaged original part.

Compatible with Tactical Vanguard platforms

Developed specifically for the **ARCTURUS Tactical Vanguard Hi-Capa** , this **Valve Knocker Lock** meets the manufacturer's specifications to ensure perfect integration into the replica's internal mechanism.

A part suitable for maintaining the mechanism

When overhauling or replacing components of the trigger and firing group, changing the **Valve Knocker Lock** helps to maintain the reliability and consistent operation of the **Hi-Capa** platform.

FAQ

Which replicas is this part compatible with?

It is compatible with ARCTURUS Tactical Vanguard Hi-Capa platforms.

What is the role of a Valve Knocker Lock?

The Valve Knocker Lock holds and guides the Valve Knocker in the mechanism to ensure its proper operation during the firing cycle.

Why choose a MIM steel part?

MIM steel offers excellent mechanical strength, high manufacturing precision and good durability for highly stressed internal components.
