- **Red dot:** Aluminum open reflex
- **Viewfinder settings:** Windage, elevation, and brightness adjustable
- **Viewfinder power supply:** 1 CR2032 battery included
- **Color:** Black

A pack that's ready to use right out of the box

This **Lancer Tactical package** includes an **LTX Competition GBB** replica and a perfectly matched **Red Dot Reflex sight** . No need to select your optics separately: the platform is already designed to accept an RMR-format red dot sight for faster target acquisition.

A GBB platform designed for competition

Developed from experience gained on the TP22, the **LTX Competition** combines a metal slide, a polymer frame, and G-Spec internal components, delivering a crisp blowback cycle and excellent consistency. Its Top Dead Center Hop-Up allows for easy adjustment of BB trajectory based on BB weight.

A compact red dot for increased speed

The **Red Dot Reflex** features an aluminum body, windage and elevation adjustments, and adjustable brightness. Its large screen promotes instinctive aiming, particularly appreciated in CQB and during rapid fire between multiple targets.

RMR compatibility

The **LTX Competition** comes equipped with an RMR-compatible mount installed on the barrel. The **sight included in this package** , usually sold without a base, mounts directly onto this interface. Therefore, no additional mount is required for this configuration.

A scalable platform

Compatible with numerous TM Glock standard accessories, this replica allows for extensive customization. Its lower rail also allows for the mounting of a compatible light or laser to adapt the configuration to each playing style.

Usage tips

In automatic mode, like all GBB replicas, the LTX Competition can be affected by the **Cool Down Effect** . To maintain consistent performance, favor semi-automatic firing or short bursts, use magazines at room temperature, and avoid very low ambient temperatures.

FAQ

Is the red dot included in this pack?

Yes. This pack includes the LTX Competition GBB pistol and the Lancer Tactical Red Dot Reflex sight.

Do I need to buy an additional mount to install the red dot sight?

No. Although the Red Dot Reflex is sold separately without a base, it installs directly onto the RMR interface of the LTX Competition included in this pack.

Is the pistol compatible with TM Glock accessories?

Yes. The LTX Competition is compatible with many accessories and parts to the TM Glock standard, facilitating customization.
