Winchester ammunition shooting or hunting for striped weapons

Flat-warhead ammunition particularly suited for use with lever-action rifles in which the punishments are stored in a tubular magazine where the warhead touches the leader of the next ammunition.

Super X cartridge with semi-armored bullet, flat lead tip & flat nose cartridge, cowboy action shooting special cartridge

Flat balls are compatible with tubular magazine carbines (lever rifles, winchester ...) because they do not collide with each other when they are in line in the tube.

Winchester super x cartridge with semi shielded bullet, flat lead tip.

- Great versatility: all types of game and hunting
- Awesome stopping power
- Double expansion
- Extreme precision
- Merged Ogive
