- **Barrel finish:** phosphated
- **Included items:** hard case, shoulder strap, cleaning kit, flash hider and user manual

The MAC Arms MAC 5 rifle operates in semi-automatic mode with a roller-delayed opening system. Chambered in 9x19mm, it features an 8.9" barrel with 1/2-28 TPI threading and a TRILUG interface. The adjustable drum rear sight and protected front sight allow for sight adjustment. The receiver has a lacquered finish, while the barrel has a phosphated finish. Delivered in a hard case with two 10-round magazines (30-round capacity), the MAC 5 also includes a sling, a cleaning kit, a flash hider, and an instruction manual.

A semi-automatic operation with delayed opening via rollers

The **MAC Arms MAC 5** uses a **roller-delayed,** semi-automatic action. Its fluted chamber moves with the extraction cycle, while the 8.9" barrel features a phosphate finish, 1/2-28 TPI threading, and a machined three-lug interface. Its stock flash hider has a quick-release mounting/dismounting system that facilitates replacement with a suppressor.

A compact setup for sport shooting

With an overall length of 17.9 inches, this **9mm semi-automatic rifle** boasts a compact design. The adjustable drum rear sight and protected front sight form an adjustable iron sighting system. The fire selector, for switching between fire and safe modes, is conveniently located in line with the pistol grip, allowing for quick, one-handed switching between modes.

A complete kit in a briefcase

The rifle comes in a hard case with **two detachable magazines, each with a 10-round capacity** . Their bodies replicate the external dimensions of a **30-round magazine** , without altering their actual capacity. A sling, a cleaning kit, a flash hider, and the user manual complete the package.

Acquisition conditions and regulations

The **MAC Arms MAC 5** is classified in **category B2°e** . Its purchase and possession are subject to prior authorization from the prefecture. The purchaser must present, in particular, proof of identity, a valid shooting license, and a valid authorization accessible through their **SIA account** . A shooting license alone does not permit purchase.

Transporting a firearm requires a legitimate reason; a shooting license constitutes a legitimate reason for transport within the context of sporting activity. The firearm must be rendered immediately unusable during transport. At home, it must be stored in a **safe, gun cabinet** , or suitable secure room.

FAQ - MAC Arms MAC 5 9mm Carbine

How does the MAC 5 charger unlock?

The loader can be released by means of a paddle control or a push button.
