Add an additional collar to the Midland BeeperOne GPS Collar Kit, to track a second dog.

The **Midland BeeperOne GPS Second Dog Kit** includes an ultra-compact collar with a blue strap that is shock-resistant and IPX7 certified. This means it can withstand rain, mud, and immersion up to 1 meter. Real-time tracking allows you to view the location, distance, and behavior of each dog. Customizable audible alerts and vibrations facilitate long-distance communication, while a silent mode and adjustable ringtones adapt the system to the context of the outing.

- **Type:** Second Dog Extension Kit
- **Compatible system:** BeeperOne GPS
- **Tracking:** real-time position, distance, and behavior
- **Signaling:** customizable audible and vibration alerts
- **Settings:** silent mode and adjustable ringtones
- **Waterproofing:** IPX7, immersion up to 1 meter
- **Durability:** shock-resistant collar
- **Strap:** blue
- **Power supply:** rechargeable battery

Track a second dog with the BeeperOne GPS system

The **Midland BeeperOne GPS Second Dog Kit** complements a BeeperOne GPS device, allowing you to manage two dogs simultaneously. The position, distance, and behavior of each dog can be viewed in real time from the tracking system. This separate identification makes it easier to monitor movements when the dogs are traveling in different directions or at different distances.

A collar adapted to hunting conditions

The additional collar features an ultra-compact design and is shock-resistant. Its **IPX7** certification allows it to withstand rain, mud, and immersion up to 1 meter. The blue strap makes it easy to visually distinguish this collar from the other equipment used for the two dogs.

Customizable alerts and silent operation

Customizable **audible alerts** and vibrations offer several ways to communicate with your dog remotely. Silent mode prioritizes vibrations when discretion is desired. Adjustable ringtones also allow you to adapt the audible signal to the conditions of your outing and the presence of other dogs or hunters.

A complete extension for tracking two dogs

This kit includes the collar and the necessary power supply accessories. It expands the capabilities of the **BeeperOne GPS system** without requiring a second remote control. The hunter thus retains a single interface for monitoring the information transmitted by both collars.

FAQ - Midland BeeperOne GPS second dog kit

Is the BeeperOne GPS remote control included in this kit?

No. The pack contains a BeeperOne GPS collar, a blue strap, a charging station, a power adapter and a USB cable.
