Power your compatible devices with a 3V lithium battery.

Energizer offers the **CR123A 3V lithium battery** individually. Its lithium manganese dioxide technology provides a nominal voltage of 3V and a minimum capacity of 1500mAh. Its low internal resistance allows it to quickly deliver power after using a flash, enabling a new shot with a compatible camera. This battery can also power a flashlight, remote control, or alarm system that accepts the CR123A format. Its dimensions are 34.5mm in height and 17mm in diameter.

- **Technology:** lithium manganese dioxide
- **Voltage:** 3V
- **Minimum capacity:** 1500 mAh
- **Dimensions:** 34.5 mm high and 17 mm in diameter
- **Weight:** 16.5 g
- **Operating temperature:** -40°C to +60°C
- **Packaging:** 1 battery

A lithium battery for photography

The **Energizer CR123A battery** is suitable for cameras compatible with this format. Its **low internal resistance** allows it to quickly deliver power after flash use, enabling you to take another shot.

Applications on compatible devices

The **CR123A 3V** battery can also power a flashlight, remote control, alarm or surveillance system, or compatible computer accessory. Check the battery size and voltage specified for your device before replacing the battery.
