A thin vest with removable heating elements for the lower back and sides.

Designed to be worn close to the body as a mid-layer, the Heat Vest 1.2 Men combines a stretchy, breathable fabric with two removable heating elements. These attach inside the vest to warm the lower back and sides. Compatible with Lenz Body Heat System batteries, sold separately.

- **Type:** Men's close-fitting heated vest
- **Heating elements:** a pair of removable Heat Pads included
- **Heated areas:** lower back and sides at kidney level
- **Fastening:** hook and loop fasteners inside the vest
- **Power supply:** compatible Lenz Body Heat System batteries, sold separately
- **Outer fabric:** 88% polyester and 12% elastane
- **Inner fabric:** 100% polyester
- **Closure:** zip with chin guard
- **Reflective elements:** front and rear
- **Contents:** vest, pair of Heat Pads, storage pouch for the Heat Pads, and safety and care instructions

Targeted heat with Heat Pads

The two removable heating elements attach to the hook-and-loop fasteners inside the vest and warm the lower back and sides around the kidneys when powered by Lenz Body Heat System batteries. Batteries are not included.

A slim fit for activities in cool weather

Thin, stretchy, and breathable, the Heat Vest 1.2 Men is designed to be worn close to the body as a mid-layer under a jacket. The outer garments contribute to thermal insulation. The vest can also be worn as a lightweight outer layer in milder weather, with or without active heating.

Its zip closure with chin guard and its small size when folded make it ideal for hiking, skiing or walking trips.
