Compact electronic call with interchangeable chip card.

The **MIMETICO SOFT** is an ultra-compact digital acoustic call, equipped with an interchangeable **BIRD SING** chip card system.

- **Function:** Reproduction of bird calls
- **Number of sounds:** 8 songs
- **System:** Digital manual with smart card
- **Compatibility: BIRD SING** cards
- **Dimensions:** 65 x 55 x 20 mm
- **Weight:** 70 g (without battery)
- **Power supply:** 6LR61 battery (9Vdc, included)
- **Connections:** Speaker jack and external power supply
- **Color:** Green

A discreet and modular digital sound tool

Ideal for wildlife observation professionals, the **MIMETICO SOFT** is an **electronic card-operated bird call** that can play up to 8 pre-recorded nature sounds. This compact model easily fits in a pocket for discreet use in the field. Users can change the chip card to vary the bird calls according to their needs.

Interchangeable BIRD SING smart cards

The **BIRD SING** system offers great flexibility: each card contains 8 distinct calls and can be replaced in seconds. This allows the call to be adapted to different species or situations, while maintaining a lightweight and versatile device.

- **Card format:** Owner BIRD SING

- **Installation:** Plug & Play
- **Capacity:** 8 sounds per card

Connectivity and convenient power supply

The **MIMETICO SOFT** operates on a standard 9V 6LR61 battery, which is easy to find and replace. An external power jack also allows for extended use. It features a port for **an external speaker** , ideal for increasing sound range in open areas or in windy conditions.

- **Battery type:** 6LR61 (not included)
- **Weight with battery:** 114 g
- **Connections:** Speaker and external power supply

Regulated use

This equipment is intended for authorized professional uses (research, regulation, etc.), its **use is prohibited for hunting** in accordance with current legislation.

Electronic bird calls contain circuits and electronic components that are sensitive to humidity.

- Store the calls in a dry place between outings
- Keep electronic bird calls away from rain, splashes, and moisture.
- If an electronic bird call gets wet by accident, immediately remove the batteries, dry the inside of the call with warm air, wait at least 24 hours before replacing the batteries.
