Effectively attract wild boars with Scroliq tar, easy to apply and irresistible to game!

Vitex Scroliq is a pine tar specially designed to attract wild boars and deer. Presented in a box of 6 bottles of 1.25 kg each, this product is distinguished by its ease of use thanks to its flexible bottle with a dispenser tip. Simply unclip the end of the tip and squeeze the bottle to apply the tar directly to the trees.

Scroliq tar is made by distilling pine wood, giving off a powerful odor that acts like a magnet for wild boars. By rubbing against trees coated with this tar, the animals get rid of their external parasites, which encourages them to return regularly.

Instructions for use:

- Choose trees already frequented by wild boars, at a rate of one tree for every 50 hectares.
- Apply the tar between 50 and 80 cm from the ground, using between 1 and 1.5 kg per tree.
- For better adhesion, make 1 to 2 cm horizontal cuts on the bark before application.
- Reapply regularly to enhance the scent and compensate for natural removal.

It is recommended to place the bottle at room temperature of 20°C the day before application to facilitate the flow of the product.

FAQ - Frequently Asked Questions:

How to use Scroliq tar? Unclip the tip of the bottle, squeeze to apply the product to a chosen tree, between 50 and 80 cm from the ground. Make notches on the bark for better adhesion.

How often should I reapply the product? It is advisable to reapply regularly to maintain an attractive odor and compensate for animal uptake.

Is Scroliq effective on other game besides wild boar? Yes, this tar also attracts deer thanks to its powerful odor.

Is the product easy to use in winter? In cold weather, place the bottle at a temperature of 20°C the day before application to facilitate the flow of the tar.

Is Scroliq made in France? Yes, Scroliq tar is made in France, guaranteeing optimum quality.

Care instructions: Store the bottle in a dry place, away from excessive heat and frost. After use, be sure to close the packaging tightly and store upright. Wear gloves when applying to avoid contact with skin.

Vitex Scrolig is the ideal ally for hunters wishing to effectively attract wild boars and deer, while benefiting from a simple and clean application.
