- **Capacity:** 6 × 1.25 kg
- **Packaging:** Flexible bottle with dispensing nozzle
- **Made** in France
- **Use:** Rubbing trees and muds

A very attractive pine tar

Scroliq Vitex is made from **pine tar** obtained by distilling the wood. Its powerful scent attracts **wild boar** and **deer** for a long time, encouraging them to use rubbing trees and other designated areas.

Easy application thanks to the dispenser nozzle

Packaged in a **1.25 kg** flexible bottle, Scroliq is easy to apply by unclipping the nozzle and then squeezing the bottle. This design allows for precise dosing and clean application directly onto the tree trunk.

Instructions for use

Choose a tree already frequented by wild boar, at a rate of approximately one tree per 50 hectares. Apply between **1 and 1.5 kg** of the product to a height of **50 to 80 cm** from the ground. To improve tar adhesion, make a few horizontal cuts of 1 to 2 cm in the bark before application. Repeat the

treatment regularly to maintain an attractive scent.

Easier to use in winter

In cold weather, it is recommended to place the bottle at a temperature of approximately **20°C** the day before use in order to make the tar more fluid and facilitate its application.

Professional packaging

This product is sold in **cartons of 6 bottles of 1.25 kg** , a format perfectly suited to retailers, hunting companies and land managers with several posts to maintain.

Storage instructions

Store the bottles in a dry place, protected from frost and high temperatures. After use, carefully close the nozzle and store the bottles upright. Wearing gloves is recommended during application.

FAQ

How to apply Scroliq?

Unclip the dispenser nozzle and squeeze the bottle to apply the tar to a tree between 50 and 80 cm from the ground. Making a few cuts in the bark improves the product's adhesion.

How often should the application be renewed?

It is advisable to renew the application regularly in order to maintain strong attractiveness and to compensate for the natural removal done by animals.

Is this item sold individually?

No. This reference corresponds to a **carton of 6 bottles of 1.25 kg** .
