Hoist and suspend large game up to 200 kg with a pulley system.

Rugged Gear offers a lifting kit designed to hoist and suspend large game weighing up to 200 kg. The system combines a spreader bar, pulleys, rods, and steel hooks with a 1/4" polypropylene rope. The **Rugged Gear Gambler and Pulley Hoist** brings together all the necessary components for setting up the hoist in a single kit. The pulleys guide the rope, simplifying the maneuver, while the hooks and spreader bar provide the required suspension points.

- **Type:** Pulley block and tackle with spreader bar
- **Maximum load:** approximately 200 kg
- **Structure:** steel rods
- **Hooks:** steel
- **Rope:** 1/4" polypropylene
- **Purpose:** lifting and suspending large game

A hoist designed for big game

The **Rugged Gear Gambrel and Pulley Hoist** combines a spreader bar and a pulley system for lifting and suspending large game. The various components are grouped in a single kit, providing everything needed to prepare the lifting station.

A maximum capacity of 200 kg

The maximum load capacity is approximately 200 kg. This information allows you to select the hoist according to the weight to be lifted. The applied load must remain within this limit, and the support used must be suitable for the operation.

Steel rods and hooks

The spreader bar is made of **steel rods** and includes hooks for suspension. Combined with pulleys, it provides a consistent setup for restraining game during post-harvest operations.

A 1/4" polypropylene rope

The synthetic polypropylene rope has a diameter of **1/4"** . It runs through the pulley system to assist with the lifting operation. Before each use, the support, anchor points, and the condition of the components must be checked according to the intended load.
