A practical and elegant hunting seat

Whether you're waiting at your post for a long time, observing, or taking a walk in nature, the **Gastrock Adjustable Safety Oak Walking Stick-Seat** provides welcome comfort. This ingenious solution combines the advantages of a **walking stick** and a **portable seat** in a compact and easy-to-carry format.

A solid oak handle in an authentic style

The round hook handle is crafted from carefully selected solid oak. Its natural feel and ergonomic shape ensure an excellent grip. This fine material also adds a touch of elegance that immediately

distinguishes this model from classic walking sticks with seats.

Precise adjustment thanks to the 9 positions

The push-button adjustment system allows for quick height adjustment between 90 and 110 cm. The nine available positions offer precise adjustment according to the user's height or the terrain. This flexibility improves comfort both when seated and while moving.

A lightweight and sturdy structure

Made of lightweight metal, this walking stick with a seat weighs only about 1.2 kg. Despite its lightness, it supports a maximum load of 130 kg. This design offers an excellent balance between sturdiness, stability, and ease of transport.

Designed for the field

The rotating and removable lower section enhances everyday usability. Its modern and functional design perfectly meets the needs of hunters, wildlife observers, and outdoor enthusiasts looking for reliable and durable equipment.

FAQ

Is the height adjustable?

Yes, this walking stick seat has a 9-position adjustment allowing you to adjust its height between 90 and 110 cm.

What is the maximum weight this model can support?
