Bonded, taut trajectory and benchmark penetration.

The Norma Oryx in .270 Winchester Short Magnum (WSM) 150 gr combines a bonded bullet with a high ballistic coefficient, delivering a flat trajectory and massive expansion while retaining up to 99% residual weight. Ideal for hunting big game at medium and long ranges.

- **Bullet type:** Oryx (bonded, controlled expansion)
- **Bullet weight:** 150 grains / 9.7 g
- **Structure:** Thin jacket, welded core for maximum mass conservation
- **Initial velocity:** 950 m/s
- **Energy at the mouth:** 4379 J
- **Box of:** 20 cartridges

Premium ammunition for precision hunting

The .270 WSM is known for its high velocity and very tight trajectory, ideal for mountain or open terrain. With the Oryx bullet, every shot delivers a combination of **accuracy**, **efficient expansion** and **consistent penetration**, even at long ranges.

Speed

- V0 950 m/s
- V100 853 m/s
- V200 771 m/s
- V300 694 m/s

Energy

- E0 4285 J
- E100 3529 J
- E200 2883 J

- E300 2336 J

Long-range efficiency and maximum reliability

This cartridge is perfect for hunters looking for ammunition with consistent performance over the entire range. The combination of the .270 WSM and the Oryx bullet guarantees formidable results on big game, especially deer or wild boar, even in technical terrain.

- Powerful and precise up to 300 m
- Rapid expansion and high residual weight for optimal penetration
- Bonded construction recognized for its reliability on bones and hard tissues
