### Fast expansion and smooth feeding, even in semi-auto.

The design of Norma balls is one of the most renowned in the world. Norma offers a fantastic range in which each cartridge is synonymous with reliability, accuracy and efficiency.

#### Norma-Alaska

The Alaska is a crimped half-armored bullet that offers fast and massive expansion

- Thinned front shirt for easier expansion
- Harder rear shirt for deep impact

#### Norma Vulcan

The thinned front shirt allows for rapid expansion and high energy transfer. The butt of the liner is bent at the end to protect the lead core from recoil damage in the magazine. A classic for wild boar and red deer hunting.

- Half armored bullet
- Good shock effect and rapid expansion

#### Standard PPDC

Semi-armoured bullet with a plastic tip, harder rear jacket for good depth penetration. Rapid expansion for a good shock effect.

#### Norma Evostrike

The Evostrike bullet is the ideal lead-free choice for small to medium game hunting when an instant shot is required. Double tin cores and feature a special pre-fragmentation of the frontal core and a solid core at the rear for improved penetration.

- Tin front and back cores
- Homogeneous deformation on impact
- Nickel-plated shirt Polymer tip

### A traditional bullet for modern rifles

The 9.3x62 Norma Plastic Point is perfect for hunters looking for a **fast-expanding** round while maintaining excellent shooting consistency. Its design promotes **immediate mushrooming** on muscular game, such as wild boar or deer, while ensuring perfect reliability in semi-automatic weapons.
