Maximum stopping power for modern express rifles.

The Norma Oryx 285 gr in 9.3x74 R caliber is a high-end ammunition designed for hunting very large game with tilt-action weapons. Thanks to its bonded bullet, it combines **massive expansion** and **high mass retention** for clean and penetrating shots, even on the toughest game.

- **Bullet type:** Oryx (bonded, controlled expansion)
- **Bullet weight:** 285 grains / 18.5 g
- **Structure:** Welded warhead, homogeneous mushrooming
- **Initial velocity:** 710 m/s
- **Energy at the mouth:** 4665 joules
- **Box of:** 20 cartridges

A high-end solution for express delivery

Developed for double and combination rifles, the Norma Oryx 9.3x74 R 285 gr is designed for massive game in driven hunts. Its bonded bullet allows for **near 100% mass retention**, even after penetrating dense tissue. It offers an **immediate shock effect** while maintaining sufficient penetration on the heaviest animals.

Speed

- V0 710 m/s
- V100 634 m/s
- V200 563 m/s
- V300 498 m/s

Energy

- E0 4665 J
- E100 3722 J
- E200 2937 J
- E300 2296 J

Designed for very large game

Usable in all modern tilting weapons chambered in 9.3x74 R, this ammunition ensures **reliability on impact** and **homogeneous expansion** even through thick tissue or bone. It is perfectly suited for elk, massive wild boar or deer in driven hunts.

- Ideal for express rifles and mixed weapons
- Consistent performance even at short distances
- Compatible with heavy hunting regulations
