The design of Norma balls is one of the most renowned in the world. Norma offers a fantastic range in which each cartridge is synonymous with reliability, accuracy and efficiency.

Norma-Alaska

The Alaska is a crimped half-armored bullet that offers fast and massive expansion

- Thinned front shirt for easier expansion
- Harder rear shirt for deep impact

Norma Oryx

The Oryx is a deformation bullet with high mass conservation thanks to the core welded in lead to the jacket

- Slim anterior sheath for rapid expansion
- Harder posterior sheath
- Significant mass retention

Norma Vulcan

The thinned front shirt allows for rapid expansion and high energy transfer. The butt of the liner is bent at the end to protect the lead core from recoil damage in the magazine. A classic for wild boar and red deer hunting.

- Half armored bullet
- Good shock effect and rapid expansion

Standard PPDC

Semi-armoured bullet with a plastic tip, harder rear jacket for good depth penetration. Rapid expansion for a good shock effect.
