BO401	CO2 bottle (88 grams)	Vente libre	5/8 x 18	88	16.00 € incl. tax

High-performance 88g CO2 cartridge for airsoft and paintball compatible.

Ultrair offers this **88g ASG CO2 bottle** designed to provide a powerful and consistent power supply to compatible replicas and equipment. Its high-capacity format ensures excellent autonomy for long gaming sessions.

- **Type:** CO2 cartridge
- **Capacity:** 88 g
- **Compatibility:** ASG TAC Repeat, HPA systems with adapter, paintball
- **Thread:** 5/8x18 threaded collar
- **Use:** Airsoft and paintball
- **Performance:** Constant pressure, high autonomy
- **Brand:** Ultrair / ASG

A high-capacity CO2 supply

With its **88g CO2** capacity, this bottle offers ample autonomy for long sessions without frequent refills. This solution is particularly appreciated on platforms requiring a stable and long-lasting power supply.

Compatible with the ASG TAC Repeat

This cartridge was specifically developed to work with the **ASG TAC Repeat** , a platform appreciated for its fast semi-automatic operation and efficient CO2 supply.

Versatile use for airsoft and paintball

Thanks to its standard threaded neck, this bottle can also be used with some compatible **paintball** equipment or as an emergency power supply on **HPA** systems equipped with a suitable adapter.

Consistent pressure and performance

CO2 remains a highly sought-after solution for achieving stable and responsive pressure, particularly on platforms requiring a high-power supply. In practice, this translates into excellent mechanical responsiveness and appreciable firing consistency.

- **Contents:** 88 g of CO2

- **Connection:** Standard thread
- **Main compatibility:** ASG TAC Repeat
- **Secondary compatibility:** Some HPA and paintball systems
- **Use:** Airsoft and paintball

FAQ

Is this cartridge compatible with the ASG TAC Repeat?

Yes, this 88g CO2 bottle is specifically compatible with the ASG TAC Repeat system.

Can this bottle be used with an HPA system?

Yes, this cartridge can serve as a backup solution on some HPA systems when a compatible adapter is used.

Is this bottle suitable for paintball?

Yes, it can be used with certain paintball markers compatible with 88g threaded CO2 cartridges.
