An accessible and complete AR15-type platform

The **DS4 Carbine** adopts the modern lines of the AR15/M4 platform in a lightweight and easy-to-handle version. From the first handling, you'll find a familiar ergonomic feel with an adjustable stock and good weight distribution.

A complete ready-to-play kit

This **complete airsoft kit** includes a red dot sight, a dummy silencer, a tactical light, a foregrip, a sling, a bag of BBs, a battery, and a battery charger. In other words, it provides everything you need to get started with airsoft without any immediate additional purchases.

Adjustable hop-up for improved trajectories

The **adjustable Hop-Up** system optimizes the range and stability of 6mm BBs. Even on a beginner's platform, this adjustment provides greater shooting comfort and a more enjoyable experience on the field.

Rail accessories and customization

Thanks to its **accessory rail** , the replica easily accepts various compatible tactical equipment. The included red dot sight and grip immediately enhance immersion and improve handling during movement.

A replica suitable for discovering airsoft

With its low power of **0.08 Joules** and its light weight, this replica is perfectly suited for beginners or recreational use in a safe environment. Its rifle-like form factor remains comfortable for both young users and adults looking for a lightweight platform.
