Precision Ogun Haendler and Natermann for competitive shooting

Ogives high speed

- Copper lead ball with extra layer of plastic
- avoids bursting and deposits of lead
- For all loads and weapons, also suitable for rifle charges

Over a century of experience and permanent contacts with the best shooters have allowed the company h & n to deepen its knowledge. In order to achieve maximum precision, she designed and built an electronically controlled production and control line, as well as the necessary tools. Sports shooters are more and more likely to shoot pombs h & n.

Their confidence is the key to success of h & n, which, with the final lead match, has during these last years enjoyed exceptional success in all national and international competitions.
