MWA5122	cal. 12/70 Nickel Plated Steel N°4	C	HP (High Performance)	cal. 12	70 mm	18	Wad	4	30.00 € incl. tax

For proven shotguns (1320 bar)

Drylock has been specifically designed to resist corrosion and oxidation, often unavoidable in wet areas. This cartridge is made completely waterproof thanks to various Winchester innovations.

The steel shot first has been specially treated against corrosion: the star crimp of the case is heat welded, the wad is also waterproof thanks to its two-part design and finally, the primer has been varnished to prevent any moisture intrusion.

Box of 25 cartridges
