**Powerful and reliable lead-free ammunition for hunting heavy game.****Sauvestre ammunition - special beat**

French ammunition manufactured according to the strictest standards to adapt to the European game.

Ogive FIP (internal arrow)

- FIP Sauvestre warheads do not contain lead.
- They incorporate a steel arrow in the middle of the projectile that guarantees a more homogeneous expansion of the projectile.

delivered by box of 20.

**A robust cartridge for hunting**

The **Sauvestre FIP Battue** in 9.3x74 R caliber incorporates the **Flèche Interne Portée** technology. This **bimetallic and lead-free** bullet ensures a **triple ballistic effect** : deep penetration, controlled shredding and hydrodynamic cavitation. It thus combines **terminal power** and **precision** , even on the toughest game.

**Ballistic behavior**

With an initial velocity of 710 m/s and an energy exceeding 4100 J, this ammunition guarantees effective shots up to 200 m. Its trajectory remains regular despite the mass of the warhead, and its recoil, although marked, remains adapted to the requirements of the hunt.

**Ballistic data**

Performance measured with a 610 mm gun:

- **0 m:** 710 m/s - 4146 J
- **50 m:** 655 m/s - 3527 J
- **100 m:** 603 m/s - 2989 J
- **150 m:** 553 m/s - 2519 J
- **200 m:** 506 m/s - 2107 J
- **250 m:** 462 m/s - 1752 J
- **300 m:** 420 m/s - 1454 J

### **Recommended applications**

The Sauvestre FIP Battue 9.3x74 R is particularly suitable for **hunting heavy game** : massive wild boars and deer. It offers an ideal compromise between **terminal energy, precision and ecological respect** .

A premium choice for hunters seeking efficiency and innovation.
