- **Caliber:** .44-40
- **Capacity:** 12 shots
- **Barrel length:** 24" (610 mm)
- **Weight:** 3.20 lb (? 1.45 kg)

Smooth and quick Lever-Action Mechanics

The **Lever-Action** system offers fast and intuitive manual repeating. The standard lever ensures natural operation, faithful to historical models. The **tube-fed magazine** provides a 12-round capacity in **.44-40** , the iconic caliber of the late 19th century.

Take-down version: easy transport

The **Take Down** configuration allows the weapon to be disassembled into two main parts, simplifying transport and storage. This historically appreciated system maintains rigidity and accuracy once the weapon is assembled.

24" barrel and semi-buckhorn sights

The 24" (610 mm) barrel provides a long and stable sight picture. The **semi-buckhorn** rear sight allows for windage adjustment and facilitates target acquisition in traditional target shooting. This configuration is particularly well-suited for medium-range target shooting.

Color Case and oiled walnut finish

The **Color Case** finish contrasts elegantly with the blued barrel. The **hand-oiled walnut** stock and forend add warmth and authenticity. Each piece features a unique grain, enhancing the character of the firearm.

FAQ

To which category does this rifle belong?

This manually operated .44-40 caliber rifle is classified as category C in France. Its purchase requires a declaration and a valid permit in accordance with regulations.

What is the purpose of the Take Down system?

The Take Down system allows the weapon to be separated into two main parts for easier transport and storage, while maintaining good rigidity once reassembled.

Is this model suitable for sport shooting?

Yes, this lever-action rifle is suitable for recreational sport shooting and western-type disciplines, within a regulated and compliant framework.
