- **No scratches:** 1:16

An icon of western shooting

Originally designed for the most common handgun cartridges of its time, the 1892 remains a benchmark in **.45 Long Colt** today. On the firing range, its natural balance and intuitive handling make all the difference. It's exactly the kind of **lever-action rifle** that inspires confidence from the very first use.

Fluid Lever-Action Mechanics

The **Lever-Action** system ensures quick and smooth reloading. The **tubular magazine** provides a 10-round capacity, ideal for **recreational shooting** or Western-style disciplines. The hammer, in its half-cocked position, acts as a mechanical safety, in keeping with traditional design.

Canon 20" and precision in .45 LC

Its 508 mm barrel with a **1:16 twist rate** is optimized for the .45 LC caliber. This configuration promotes good projectile stability and consistent accuracy at medium ranges. The **Short Buckhorn** rear sight, adjustable for windage and elevation, allows for fine-tuning depending on the ammunition used.

oiled walnut wood with a mottled finish

The **oiled walnut** stock and forend offer a warm feel and excellent ergonomics. The case-hardened receiver combined with the blued barrel underscores the weapon's historical character while ensuring lasting protection against wear.

Additional features

- **Type of relaxation:** Simple
- **Extraction:** Extractor
- **Lever:** Standard
- **Material:** Steel

FAQ

What is the regulatory category of this model?

This manually operated repeating rifle in .45 Long Colt caliber falls under category C in France. Its purchase is subject to current regulations (declaration and supporting documents required).

Is it suitable for western sport shooting?

Yes, its Lever-Action mechanism, 10-shot capacity and .45 LC caliber make it a relevant choice for western-style sport shooting disciplines and supervised recreational shooting.

What maintenance is required to preserve the finish?

Regular cleaning of the barrel and mechanism after use, as well as proper maintenance of the oiled wood, will help to preserve the accuracy and aesthetics of the weapon over time.
