Compound crossbow, fiberglass frame & bow & composite stock:

- Comes with a red dot
- Arming assistance system
- A suspender
- A quiver and 4 target tip darts.

The Man Kung MK-300AC compound crossbow is similar to the MK-300B in shape, dimensions and specifications. The difference is that this MK-300AC comes with a nice camouflage print. Just like the MK-300B, this crossbow is equipped with a compound draw system. This system of cams and cables works like a pulley and makes it possible to tension rigid branches. In addition to a thumbhole stock, this crossbow features a foot stirrup, automatic safety and an adjustable sight. It also comes with a sling, red dot, cocking rope and quiver. Due to its high velocity, this crossbow is particularly suitable for experienced shooters.

- Power 175 pounds
- Camo color

We remind buyers that crossbow hunting is prohibited throughout France as well as in most European countries.
