### Big game hunting arrow fins

Quickfletch vanes are installed in an instant, always perfectly aligned and very easy thanks to the heat shrink tube which is slightly larger than the shaft of the arrow.

Installation in 3 steps:

- 1) Thread the quickfletch tube over the notch.
- 2) Gently and gradually dip the arrow into boiling water. Keep the vanes in the water for at least 10 seconds.
- 3) Re-read the arrow, let it dry... The arrow is ready!
