Enhanced stability and optimal control in tactical configuration.

The **EUROP-ARM** black airsoft bipod grip is a versatile accessory designed to improve the stability and grip of airsoft replicas equipped with a lower rail.

- **Type:** Tactical grip with retractable bipod function
- **Compatibility:** 20mm Picatinny rail
- **Materials:** Metal and polymer
- **Color:** Black
- **Weight:** 0.200 kg

Tactical grip and integrated bipod

In vertical grip configuration, this accessory immediately improves replica control during movement and dynamic maneuvers. Once deployed, the **integrated bipod** effectively stabilizes the weapon for precision shooting from a fixed position. This is exactly the kind of equipment that changes how you approach a defensive situation.

20mm Picatinny rail compatibility

The **20mm Picatinny rail** mount ensures broad compatibility with most modern airsoft replicas. Installation is simple, quick, and secure, requiring no modifications to existing equipment.

Robust construction and heavy-duty use

The combination of **reinforced polymer** and **metal** components ensures good resistance to the stresses of the game: impacts, repeated pressure, and frequent handling. The feeling of solidity in the hand is immediately noticeable, without making the replica excessively heavy.

Balance and maneuverability

- **Controlled weight:** 200 g
- **Function:** Grip + stabilization
- **Use:** Tactical airsoft, outdoor games, milsim

FAQ

Is this grip compatible with all airsoft replicas?

It is compatible with all replicas equipped with a standard 20mm Picatinny rail.

Is the bipod usable outdoors?

Yes, the bipod is suitable for the classic surfaces encountered in outdoor airsoft, for support or cover phases.

Does the accessory add a lot of weight to the replica?

No, at only 200g, it offers a good compromise between stability and maneuverability.
