Batons lumineux - bleu

Light stick, also called lightstick, very useful for night hiking or night exercise.

Chemical light without electricity, illuminates for about 12 hours, enough to light your way and be visible from several hundred meters.

These light sticks are essential in your survival kit, to take on each of your expeditions in the field or during your hikes. Their autonomy of about 8 to 12 hours will guide you in the dark.

These military grade light sticks are very light and easy to use. They can also help you out if there is a power outage at home.

Keeps years without loss of efficiency, the light is triggered when the 2 liquids mix in the tube: it twists the tube and the inner glass bulb breaks and allows the mixing of liquids.

- Autonomy: between 8 and 12 hours
- Dimensions: 15 x 155 mm.
