Active and compact hearing protection with 3 personalized listening levels.

The **Shothunt PBS** are ultra-compact electronic earpieces for **sport shooting** , offering both protection against harmful sounds and amplification of ambient sounds, according to 3 adjustable listening modes.

- **Attenuation:** 82 dB (SNR)
- **Amplification:** up to 20 dB
- **Settings:** 3 listening programs
- **Reaction time:** 1.5 ms
- **Battery life:** 140 h (zinc-air battery mod. 10)
- **Weight:** 1 g per earbud
- **Waterproofing:** complete (P2i nano-coating)
- **Contents:** 6 batteries, 6 foam tips, case, brush

3 hearing programs adapted to each situation

A simple press of the button allows you to switch between three listening levels:

- **Program 1:** protection only, without amplification, ideal for concentrating in silence.
- **Program 2:** moderate amplification to restore natural hearing.
- **Program 3:** Increased amplification to perceive faint sounds around you.

Regardless of the mode chosen, the **attenuation of sounds above 82 dB** remains active, ensuring **continuous protection** against detonations.

Multichannel digital technology

Thanks to a **100% digital processor** , these earbuds identify and eliminate only harmful sounds while maintaining **excellent sound clarity** . The 360° sound reproduction allows for natural, distortion-free listening to your surroundings.

Intra-aural ergonomics

The **Shothunt PBS earbuds** fit directly into the ear canal. Their ergonomic design, combined with memory foam ear tips, ensures a comfortable and stable fit, even during extended use.

Enhanced protection against moisture

Thanks to **P2i Aridion™** technology, the electronic components are protected against **water** , **perspiration** , and **corrosion** . This treatment makes the PBS **completely waterproof** and durable, even in humid environments or in the rain.

FAQ

How long do the batteries last?

The mod. 10 zinc-air batteries offer a battery life of approximately **140 hours** in continuous use.

Can these earphones be used in the rain?

Yes, **Shothunt PBS** are completely **waterproof** thanks to their P2i nano-repellent treatment.

Are these earpieces allowed in competition?

Yes, they are **approved by FITAV** and authorized for shooting sports events.
