Powerful and durable, ideal for intensive use!

High-performance lithium photo battery, designed for demanding devices and specialized electronic equipment.

Format: CR2
Voltage: 3 volts
Capacity: 750 mAh
Type: Lithium

Packaging: Single blister pack
 Dimensions: 15.6 mm x 27 mm
 IEC Reference: CR15H270

Designed to power your most demanding electronic equipment, this battery is perfect for lamps, electronic collars, security systems or cameras.

A compact but powerful battery

The CR2 lithium battery is ideal for intensive use, thanks to its 750 mAh capacity and a constant voltage of 3V. It provides reliable and stable power, even in extreme conditions. Compact (15.6 mm in diameter and 27 mm in height), it fits perfectly into small electronic devices such as electronic training collars, tactical lasers or digital cameras.

Excellent storage life

Thanks to its lithium chemistry, it retains its energy for up to **10 years** without noticeable loss. This is a valuable asset for professional users who need batteries ready to use in all circumstances.

Secondary specifications

■ International format: CR2 / CR15H270

■ Common applications: cameras, electronic collars, tactical accessories

■ **Packaging:** single blister with euro hole

■ Weight: Lightweight for optimal portability
