**Reinforced complete line quick disconnect with EU or US connector**

- Comes with a coupler fitted
- Length 90 cm (US) and 110 cm (EU).

Please note, this version of the reinforced hose is to be screwed directly into your regulator (fixed assembly with 3 turns of Teflon). Use only at very low pressure (0-10bar)

This reinforced hose allows you intensive use without any risk of tearing during the game.

The end fittings are crimped into the hose using a hydraulic press which provides high tensile strength (over 70 kg)

Even bent or twisted, the air continues to circulate.

The braided coating of the hose guarantees excellent resistance to abrasion.
