A robust metal design

The **Helen Baud Metal Lark Call 18** is made of **Arcap AP1** , an alloy known for its resistance to wear and corrosion. This all-metal construction guarantees excellent durability, even with regular outdoor use.

A particularly practical miniature format

With a diameter of only 1.8 cm and a featherweight 5 grams, this call is among the most compact models in the range. Its small size allows you to carry it with you at all times without hindering your movements in the field.

Always within easy reach

The integrated eyelet makes it easy to attach to a lanyard, keychain, or carabiner. This feature allows for quick access to the call when a favorable situation arises, without having to rummage through a pocket or bag.

A simple solution for nature lovers

Prized for its ease of use, this model is suitable for both hunters and birdwatchers. Its discreet size and careful construction make it a traditional accessory that easily finds its place in any field kit.

Helen Baud's expertise

For many years, **Helen Baud** has been developing game calls renowned for their quality craftsmanship and effectiveness. This model continues this tradition with a simple, robust, and durable design, suitable for demanding users.

FAQ

What bird does this bird call allow you to imitate?

This bird call is designed to reproduce the vocalizations of the skylark.

What is the advantage of an all-metal bird call?

A metallic design offers excellent resistance to wear, shocks and outdoor conditions while ensuring a long service life.

Can it be attached to a keychain?

Yes, the integrated eyelet allows you to easily attach the call to a keyring, lanyard or carabiner.
